### The Message...Never Heard

Reaching the most reachable of the most unreachable—that is our mission—and a lot of the time that means kids. For three years I have trekked to Bangladesh for kid's gospel mobilization. But something special was going on. When kids gathered, so did women. Mothers, aunts, grandmothers even swooped in to listen from the sides to what we shared with the kids. So last year we started women's meetings simultaneously with kid's meetings and the women eagerly came flocking in—women almost outnumbered the kids!

So we felt we needed something special for women...particularly Muslim women. But that can be a dangerous endeavor. If you say too much, and especially put it in print, something terrible might happen. However, there is a message we had to get across that these women have never heard the message of: You Are Treasured. And so that is the name of the beautiful tract designed by our Sophia. Women in Islam, have it tough, its about time for a new day! And all the Scriptures are from the Book of Isaiah (a recognized prophet of Islam). Try argue with that!

Above you can see a couple of English version pages from the Muslim style tract "You Are Treasured"—this is a message these women have always wanted to hear but never have. Our prayer is that this will be the beginning of their starting to seek this God that treasures them. Once they start seeking Him, they will surely find Him.

The tract is intended to be bullet-proof safe and is locally screened and approved. But please pray for safety just the same. In October this will be in the hands of Christian women leaders for the entire country of Bangladesh—the most unreached place on earth. We are printing 20,000. This blitz is grassroots all the way from Japan. And BTW we will be in Bangladesh in the field in November, cancer and all, to see God touching lives with the message they never heard...

From Bangladesh we have been told that they have never seen such a beautiful tract in all their life... so where to next? Only God knows.

Appreciate prayers for stamina...something we are a bit short on...even in Tokyo!
